HandyPark: Register a Foreign Parking Card and Add a Foreign Licence Plate

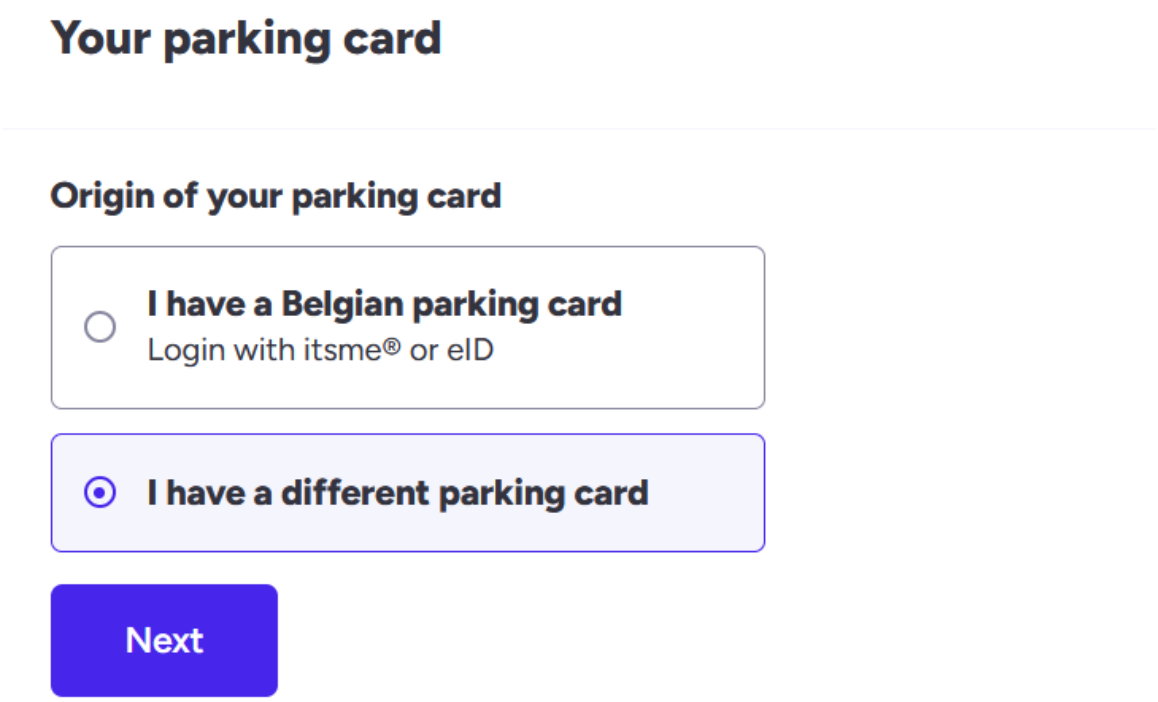

Follow the steps in order. Enter your own details. The text and numbers shown in the screenshots are examples; do not copy them.

Start registration and choose the card’s country

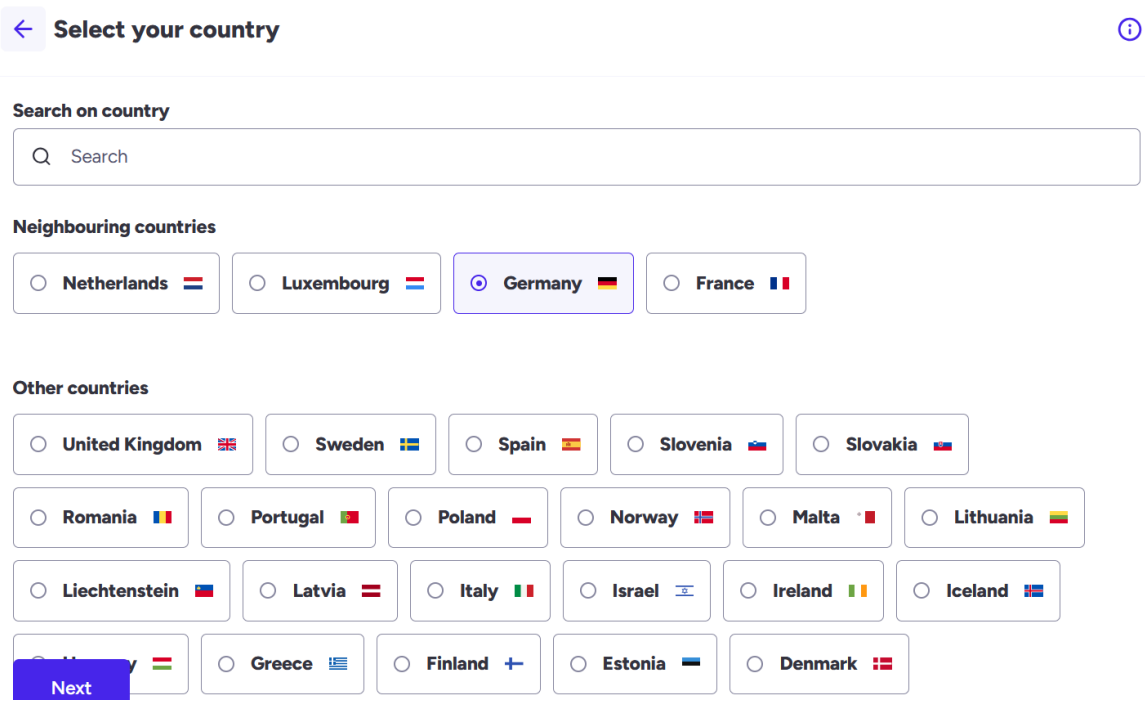

1. On the welcome screen, click Get Started

2. Under Origin of your parking card, select I have a different parking card. Click Next.

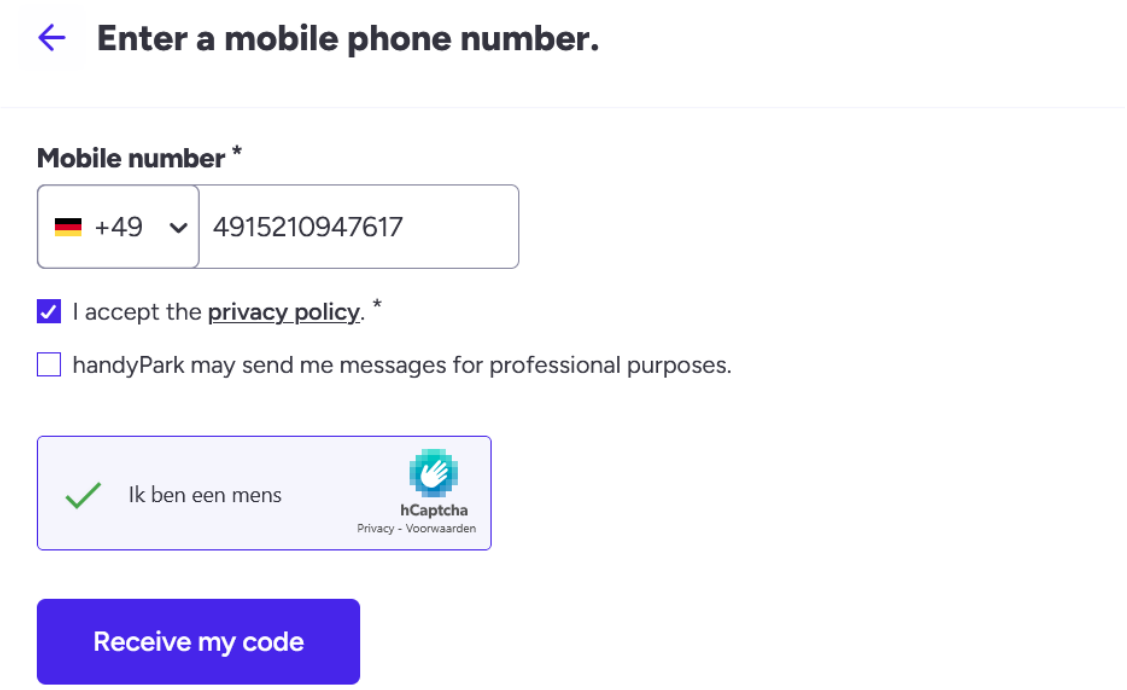

3. On Select your country, select the country that issued your parking card. You can type the country in Search on country, or select it from the list. Click Next.

Important: Select the card's issuing country, not necessarily the country where you are currently located.

Enter and confirm your mobile number

4. On Enter a mobile phone number, select the correct country calling code, then enter your mobile number in Mobile number.
5. Select the checkbox beside I accept the privacy policy. This is marked as required. The checkbox beside handyPark may send me messages for professional purposes. is optional.
6. Complete *"Ik ben een mens"* if it is not already checked. **Click Receive my code**.

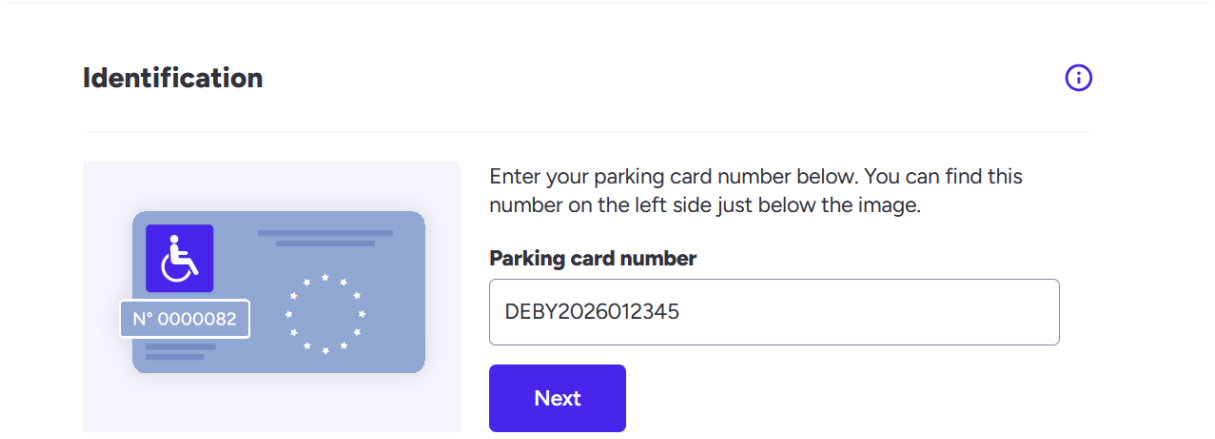

This printscreen depicts step 4, 5 and 6

7. Enter the code in One-time code, then click Submit. If needed, the screen also shows Resend code.

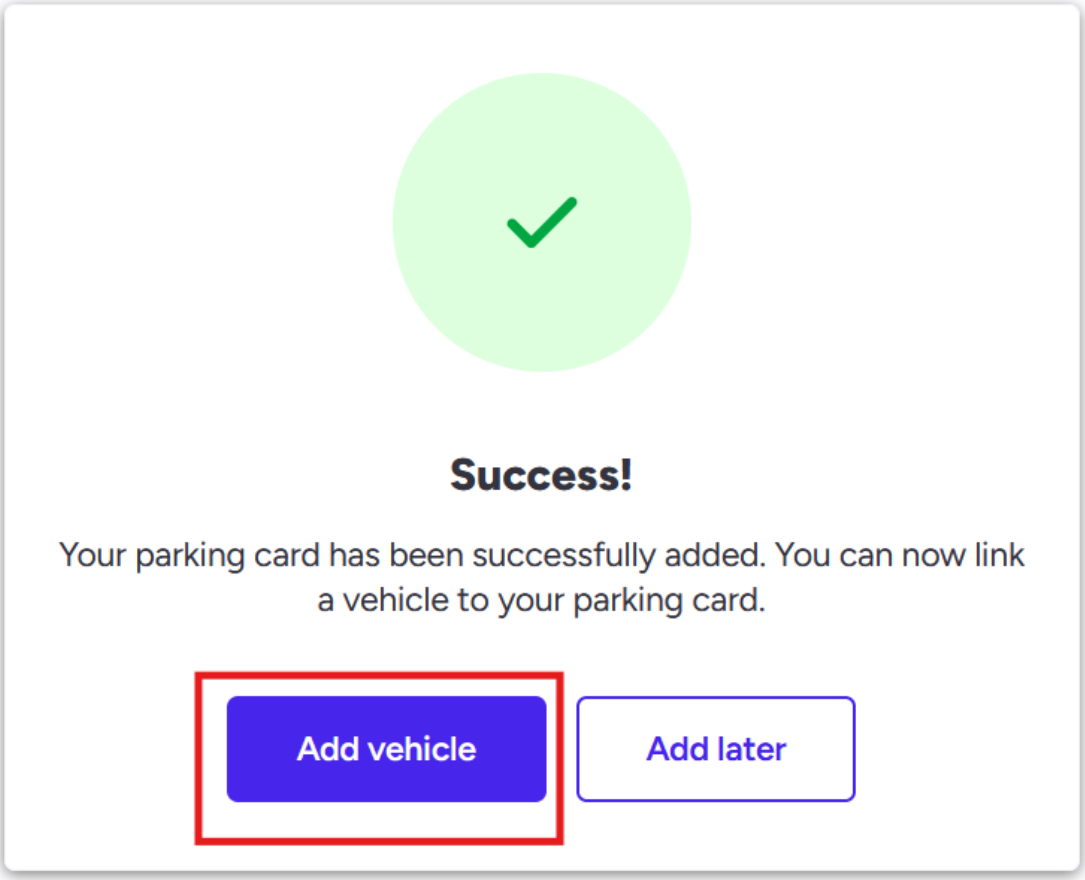

Register your parking card

8. On Identification, enter your parking card number in Parking card number. The screen says you can find the number on the left side of the card, just below the image. Click Next.

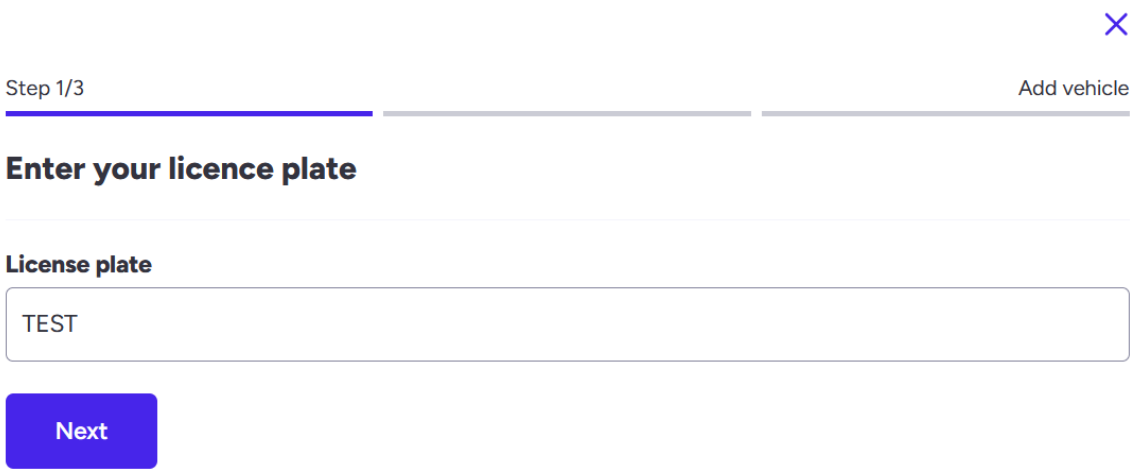

Important: Enter the number from your own card, not the example shown on the screen.

9. When the confirmation says Success! and that your parking card has been successfully added, click Add vehicle to continue.

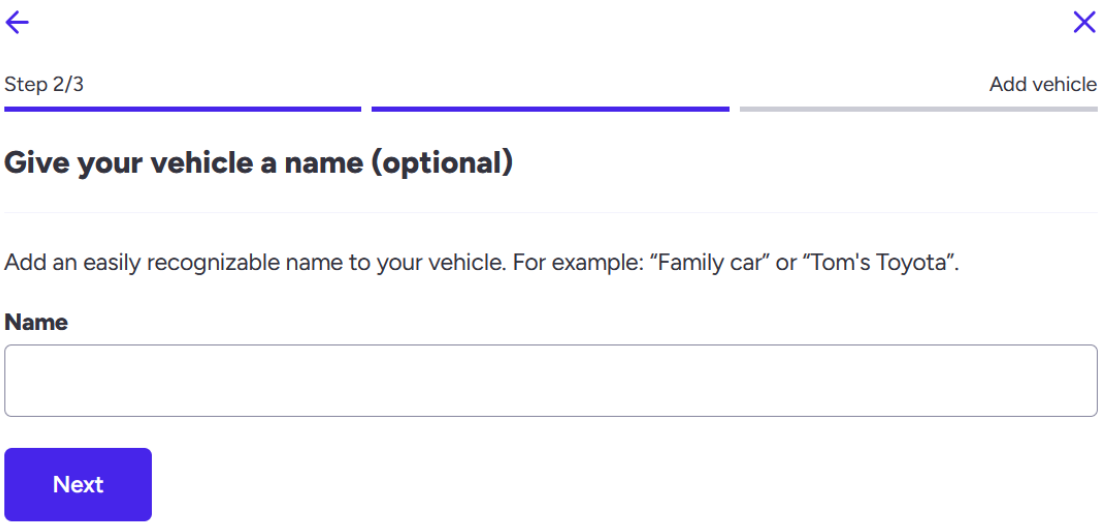

Add your foreign licence plate

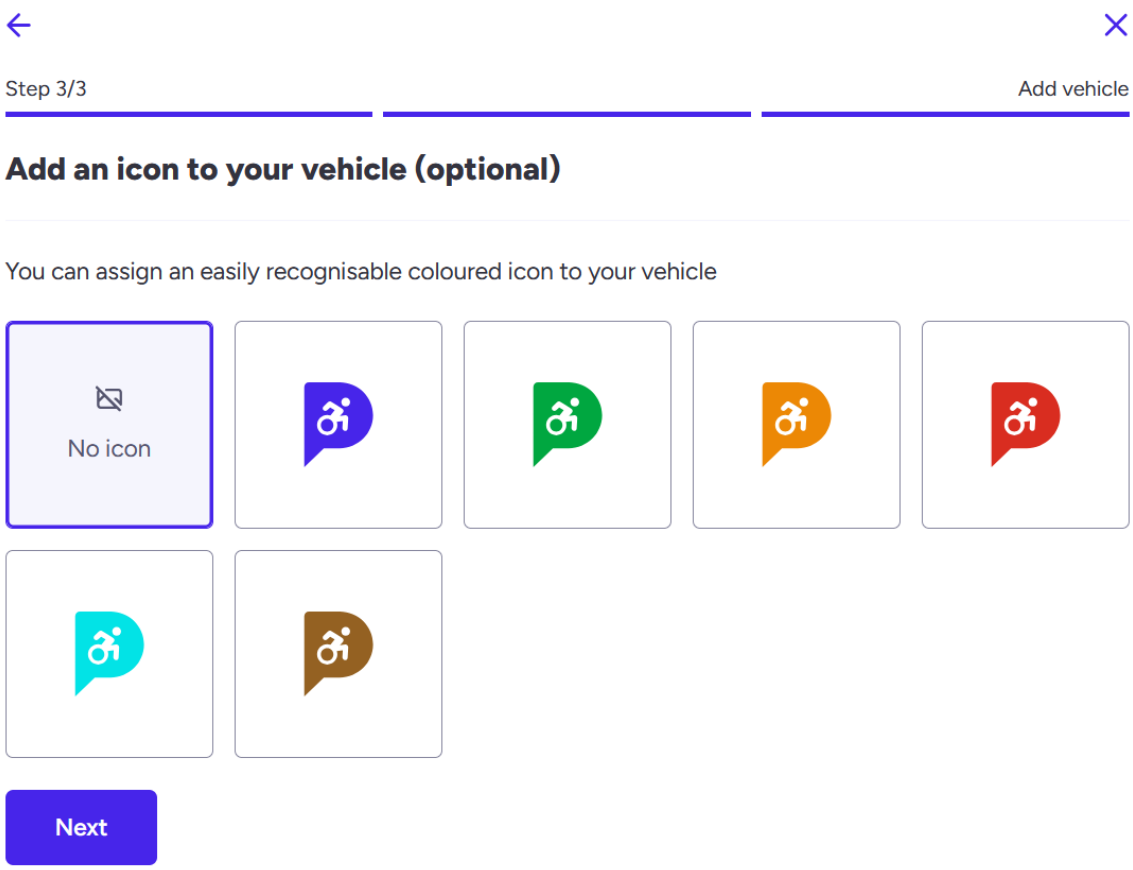

10. On Step 1/3 — Enter your licence plate, enter your foreign licence plate in License plate. Click Next.

11. On Step 2/3 — Give your vehicle a name (optional), you can enter a name in Name to help recognize the vehicle. This is optional. Click Next.

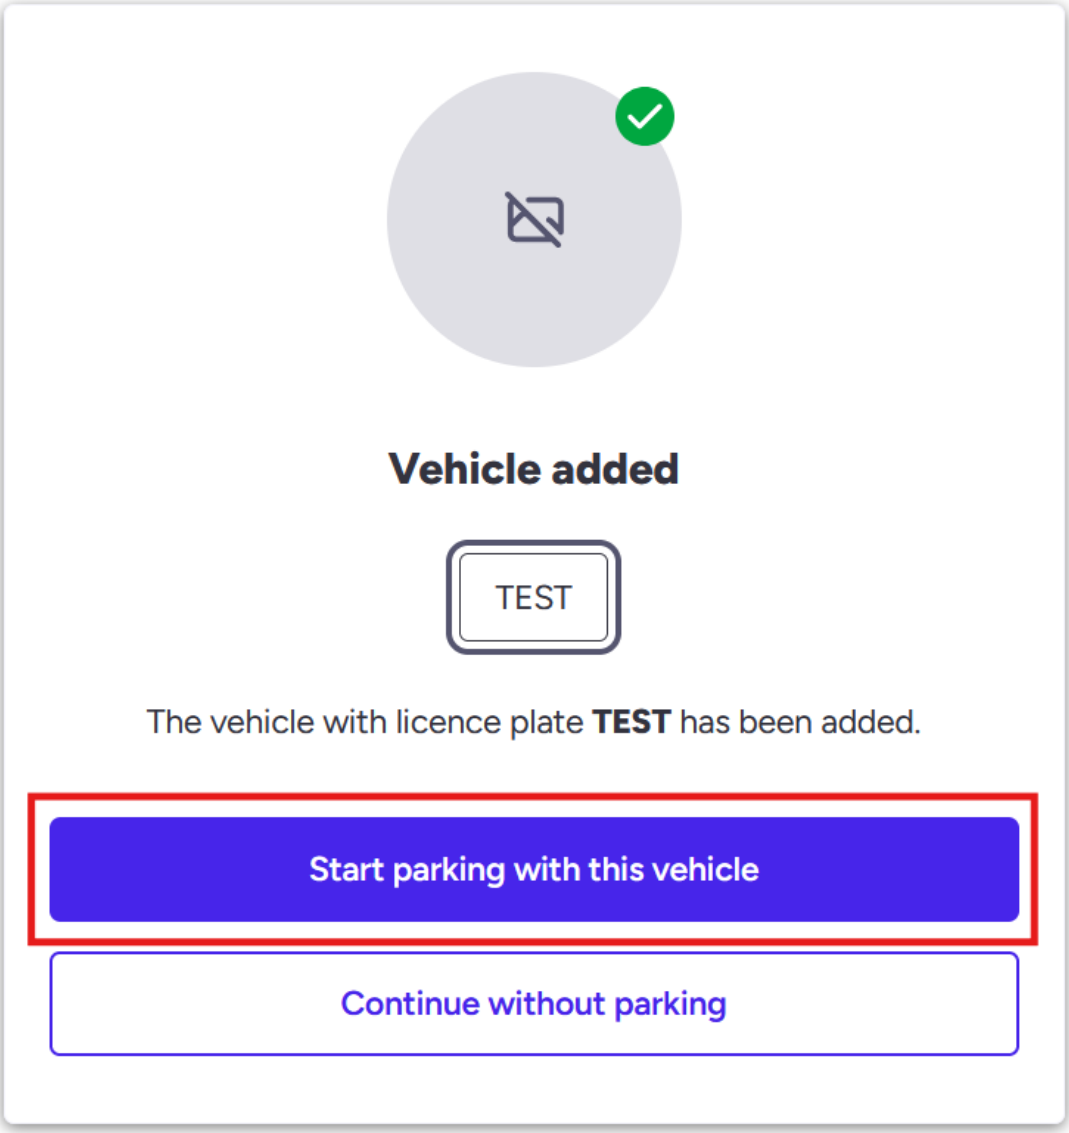

12. On Step 3/3 — Add an icon to your vehicle (optional), select an icon if you want one. No icon is already an available choice. Click Next.

Finish

13. When the screen says Vehicle added, choose what to do next: Click Start parking with this vehicle to start parking with the vehicle.

14. After starting parking, the screen shows You are currently parking with and the licence plate. The vehicle also appears under My Vehicles.
